"IT DOES NOT MATTER
WHAT YOU RIDE
WE ALL RIDE FOR
FREEDOM OF THE ROAD"

We Want You

To Ride With Us!

CMT/ABATE TENNESSEE

"CMT/ABATE, Inc. is not a "Biker Club", but a non-profit, political organization that was formed to preserve freedom and safety for all Tennesseans who enjoy motorcycling. Our major goals are to modify existing laws that are detrimental to motorcycle safety and enjoyment, and to enact new legislation in support of all motorcyclists who ride in Tennessee. If you are concerned about preserving personal freedom and motorcycle safety, please join us."

Editor's **NOTE**

LISA OGLE

In Memoriam

Joyce Poole

The wife of one of our founding Fathers passed away recently. Concerned Motorcyclists of Tennessee, CMT Abate, was founded in 1982. Joyce Poole wife of Artichoke Poole preceded her in death In November of 2020. Art and Joyce both were very active in CMT Abate lobbying for safer laws for Motorcyclists in the state of Tennessee. They both had a huge impact on CMT Abate and will be missed very much by all who knew them. They are now together in eternity. God Bless to them, their families and friends.

Rest in Peace

"2025 National Motorcycle Profiling Survey"

The **2025** National Motorcycle Profiling Survey has only 5 questions that are designed to help define the profiling trends so we can focus our resources on the areas that need it the most. Your participation will have a long-lasting, positive impact on the community. This survey on average will take 1 minute to complete.

The information collected in these surveys has been an essential part of lobbying efforts at both state and national levels, and without a doubt provides critical data points for the grassroots activist to intelligently communicate issues impacting the motorcycle community and influence change.

With over 84,000 survey participants of past survey efforts, from all walks of life, the National Motorcycle Profiling Survey has a 99% accuracy and has proven that many motorcyclists are being targeted by law enforcement based on appearance. This information has been the foundation for many legislative efforts to include Louisiana's most recent legislative victory in getting an Anti-Motorcycle Profiling bill passed.

Notes:

****NO PERSONAL DATA IS REQUIRED. YOUR PRIVACY AND ANONYMITY ARE IMPORTANT AND RESPECTED.** By asking for no more than your zip code, which is also voluntary, there is no personal information to maintain or protect.

Too Much Ya Think?

Time's almost up.

What are you going to do about it?

August 11, 2025

Every day you wait is another day Congress, federal agencies, and regulators tighten the noose on your rights, your bike, and your life-style. They've got time, money, and momentum. You? You've got this moment to step up, ride out, show up, and fight back.

The **Motorcycle Riders Foundation** isn't here to play nice – we're here to win. And the **Meeting of the Minds** is where serious bikers, badass advocates, and no-bullshit leaders unite to strategize, train, and push back.

This isn't a poker run.
You say you care about your rights? Prove it.
You want to ride free next year? Better fight now.
You think someone else will handle it? They won't.

Spots are disappearing. **Time is burning.**
And if you're still "thinking about it," the other side is counting on that.

Sam's Town Hotel & Casino - Shreveport, LA - Sept 25-28, 2025

Biker-friendly? Hell yes. Freedom-friendly? Even better.

Here's what you'll get:

- Insider tools on **Legislative Strategy**
- Hard truths about **Search & Seizure**
- Real talk on **Closing the Generation Gap**
- How to own your narrative on **social media**
- Why **Right to Repair & Modify** is a battle you must win
- Keynote speakers & thought-provoking panels
- And so much more – it's 16 workshops of pure action.

This fight started 50 years ago and has not let up.

It was helmet laws then.

It's ethanol, profiling, surveillance, AI vehicles, and your right to exist now.

Wake up one Saturday knowing your rights are intact, your bike is yours, and your freedoms are still on the road. Or don't -- and wake up wondering where the hell it all went.

The Meeting of the Minds 2025.

Don't miss the one weekend that might keep every other weekend rideable.

Register now. Or regret it later.

MRF & NCOM Joint Statement

Florida Jury: Tesla Partially Liable

August 13, 2025

A Florida jury's decision this month to hold Tesla partially liable for a fatal crash involving its Autopilot system has sent shockwaves through the auto industry. It also has motorcyclists' rights groups reminding people of our concerns.

A jury found that Tesla bore partial responsibility for a 2019 crash in Key Largo, FL, that claimed the life of a woman and seriously injured her boyfriend. The driver had engaged Tesla's Autopilot system and trusted that the car would see what the driver could not. It didn't. The vehicle plowed into a parked car at over 60 miles per hour.

"I trusted the technology too much," the driver told the court. "I believed that if the car saw something in front of it, it would provide a warning and apply the brakes."

A jury agreed that it wasn't just the driver at fault but also the automaker, for not designing limits on how the technology could be used and failing to adequately educate their customers.

This is an example of the public's flawed understanding of what self-driving systems can do. As motorcyclists, we understand how important it is to ALWAYS be aware of your surroundings.

However, it is unfortunate that marketing around these vehicles and their systems often promises ease, comfort, and advanced safety. The reality has shown repeatedly that those promises can quickly become deadly illusions.

The Motorcycle Riders Foundation (MRF) and National Coalition of Motorcyclists (NCOM) have long pressed for stronger oversight, increased transparency and public awareness of what this technology can do and more importantly, what it cannot do.

Motorcyclists must be included in the development and testing of automated systems; we are road users too. All too often, we are treated as an afterthought.

Now more than ever, it is time to support groups like the MRF and NCOM, who are on the front lines of this battle.

NHTSA Cancels MAC

August 13, 2025

This afternoon, Jay Jackson, Motorcycle Riders Foundation Vice President and appointee to the U.S. Motorcyclist Advisory Council (MAC), was notified by the National Highway Traffic Safety Administration (NHTSA) that his appointment has been terminated. We are shocked and disappointed by this decision and are still gathering information. It appears the other appointees have received similar notifications.

The MAC was created by an act of Congress in November 2021. Yet despite a requirement in the law to establish the MAC within 90 days, it took until 2023 for the nomination process to begin. It wasn't until the summer of 2024 that the members of the MAC were selected.

The inability of NHTSA to convene the 13-member board is a slap in the face to the nearly 10 million motorcyclists in this country. The mandate of the MAC was to advise the Secretary of Transportation, the Administrator of the National Highway Traffic Safety Administration, and the Administrator of the Federal Highway Administration regarding transportation safety issues of concern to motorcyclists, including "motorcycle and motorcyclist safety, barrier and road design, construction and maintenance practices, as well as the architecture and implementation of intelligent transportation system technologies.

MRF President, Kirk "Hardtail" Willard, said of the decision, "This is a striking example of how the concerns of motorcyclists are ignored. If you aren't upset, you aren't paying attention."

The MRF has already contacted members of Congress, including those on the Congressional Motorcycle Caucus, to alert them of this unacceptable action by bureaucrats in D.C.

This fight is just beginning. Be alert for upcoming messages from the MRF on how you can voice your displeasure with actions that threaten the safety of bikers.

RIDE WITH THE LEADERS!

Thousands of motorcyclists' rights activists have attended MRF sponsored annual regional and national workshops since 1985. These workshops provide the nuts and bolts, "user friendly" subjects and training to assist motorcyclists in defending, building, and strengthening their grassroots organizations.

Motorcycle Riders Foundation is proud to present their annual conference for politically motivated motorcyclists! Spend the weekend with some of motorcycling's most educated and dedicated activists. Learn what issues will impact bikers today and in the future!

Use the applications below to join and support the Motorcycle Riders Foundation and to pre-register for the 41st Annual Meeting of the Minds, September 25-28, 2025.

MRF MEETING OF THE MINDS 2025 PRE-REGISTRATION

(Must be received by September 10, 2025 to qualify for discounted rate)

The MRF's primary goals include:

- Monitoring and influencing federal legislation for any impact on the motorcycling community at large
- Representing street motorcyclists by participating in federal research and advisory committees
- Protecting street motorcyclists from unfair or burden some federal agency restrictions and regulations
- Ending discrimination against street motorcyclists
- Providing all street motorcyclists with direction and information to protect their motorcycling rights
- Promoting motorcycling safety, training, education, licensing and public awareness on American roads

WHO WE ARE

The Motorcycle Riders Foundation is the Nation's premiere motorcyclists' rights organization that is chiefly concerned with issues at the national and international levels that impact the freedom and safety of American street motorcyclists. We are also committed to educating rights advocates to improve effectiveness at the state and local levels. The MRF works together with street motorcyclists, State Motorcyclists' Rights Organizations (SMROs), the motorcycle industry, the media and other organizations, assisting them with state and local agendas as well as working with them to influence action and policy in Washington, DC - from the Congress to government departments and agencies to the Office of the President of the United States. We also work with allies in Canada, Europe and Asia to influence talks on vehicle globalization and harmonization that are proceeding under the United Nations and the World Health Organization.
